MOTION TO PRINT REPORT

Senator DeLap moved that the following Report of the Joint Fact-Finding Committee on Legislative Procedure be printed in the Journal:

Motion carried.

**REPORT OF THE JOINT FACT-FINDING COMMITTEE ON LEGISLATIVE
PROCEDURE**

*Mr. President, Mr. Speaker, and Members of the 1948
Regular Session of the Legislature:*

The Joint Fact-Finding Committee on Legislative Procedure was created by Senate Concurrent Resolution No. 65, adopted in the Senate June 20, 1947, and in the Assembly June 20, 1947. The resolution creating the committee reads in part as follows:

"1. The Joint Committee on Legislative Procedure is hereby created and authorized and directed to ascertain, study and analyze all facts relating to legislative procedure and parliamentary practices, the Joint Rules of the Senate and Assembly, and particularly such rules as will be required for proper procedure at budget sessions of the Legislature, including but not limited to the operation, effect, administration, enforcement and needed revision of any and all laws in any way bearing upon or relating to the subject of this resolution, and to report thereon to the Legislature, including in the reports its recommendations for appropriate legislation.

"2. The committee shall consist of the President pro Tempore and two Members of the Senate appointed by the Committee on Rules thereof, and the Speaker of the Assembly and two Members of the Assembly, appointed by the Speaker thereof. Vacancies occurring or existing in the membership of the committee shall be filled by the appointing power.

"3. The committee is authorized to act during this session of the Legislature, including any recess, and after final adjournment until the commencement of the 1948 Regular Session, with authority to file its final report not later than the fifteenth legislative day of that session."

The remaining provisions of the resolution are identical with the provisions in other resolutions creating interim committees.

Pursuant to Senate Concurrent Resolution No. 65, the Senate Committee on Rules appointed Senators Byrl R. Salsman and T. H. DeLap to act as Senate members with President pro Tempore Harold J. Powers, and the Speaker of the Assembly appointed Assemblymen Randal F. Diekey and Charles M. Weber to act with him as members of the committee from the Assembly.

At the organization meeting of the committee Senator DeLap was chosen as chairman, and thereafter the committee held meetings and conferred with Mr. Lawrence G. Allyn of the Legislative Counsel concerning the legal aspects of the questions before it.

The members of the committee were unanimous in their belief that the primary reason for the appointment of the committee was to determine and recommend a legislative procedure that would effectively accomplish the intention of the Legislature and the people in adopting provisions for annual sessions of the Legislature. The ballot argument favoring adoption of that provision declared:

"The primary purpose of this proposal is to deal annually with state fiscal affairs. It will *not* throw the session open to all types of legislation. Regular law-making sessions of the Legislature will remain on a two year basis."

The primary problem that will confront the Legislature at this budget session involves the enactment of urgency measures. It is contrary to the intent of the Constitution to permit the indiscriminate adoption of bills under the guise that they are necessary for the immediate preservation of the public peace, health or safety. Further, any such action conceivably can result in a judicial determination invalidating measures where it appears from the facts that they do not meet the standard for such measures prescribed by the Constitution. It is therefore necessary that the Legislature carefully scrutinize all urgency measures introduced at the budget session, weigh the facts as to the need for such measures carefully, and enact only such measures as clearly cannot await consideration at the next regular session.

It is the unanimous opinion of this committee that the restriction of the budget session primarily to fiscal affairs and the assurance that such urgency measures as may be enacted will be sustained as valid by the courts can most effectively be accomplished by the creation of a joint standing committee with power to consider and report upon the propriety of the enactment of all measures proposed for consideration at the budget session.

As to urgency measures, it would be the particular duty of that committee to hold such hearings as are necessary to determine whether the proper facts exist that require the enactment of the bill as necessary for the immediate preservation of the public peace, health or safety, as provided by the Constitution.

The committee recommends the adoption of a joint rule creating such a committee to consist of three Members of the Senate appointed by the Senate Committee on Rules and five Members of the Assembly appointed by the Speaker. In considering such measures the Senate and Assembly members would vote separately, following a procedure similar to that of a conference committee, and an affirmative vote of two of the Senate members and three of the Assembly members would be required to refer such a bill back to the house of origin for further consideration.

Bills referred to this committee could be withdrawn from it after two days notice and by a two-thirds vote of the house in which the bill originated.

It is further recommended that the Joint Rule instruct the committee that it shall not report out an urgency measure for further consideration unless the committee determines that there is a bona fide urgency and that the enactment of the bill cannot await the convening of the next regular session.

Dated : Monday, March 1, 1948.

- Respectfully submitted,

REQUEST FOR UNANIMOUS CONSENT

OPINION OF THE LEGISLATIVE COUNSEL

STATE OF CALIFORNIA
OFFICE OF LEGISLATIVE COUNSEL

SACRAMENTO 2, CALIFORNIA, February 16, 1948

Legislation Which May Be Considered at a Budget Session—No. 6267

California's first budget session will convene Monday, March 1, 1948. It is designated a regular session but is limited as to subject-matter.

At such a session the Legislature *may consider only*:

- (a) The Budget Bill for the next ensuing fiscal year.
- (b) Revenue acts necessary therefor.
- (c) Urgency measures requiring a two-thirds vote.
- (d) Acts calling elections.
- (e) Proposed constitutional amendments.
- (f) Approval or rejection of charters and charter amendments.
- (g) Acts providing for the expenses of the session.

Generally

The session will be designated the "1948 Regular Session," pursuant to Joint Rule No. 39, adopted at the 1947 Regular Session. When the session convenes, each house will elect officers for the session, adopt rules, and provide for the appointment of such standing committees as may be necessary.

Insofar as the Constitution specifies and limits the subjects upon which the Legislature may act at budget sessions, such a session will be similar to special sessions convened by the Governor. In order to enact any specified measure, it must come within one of the classes specified in the Constitution.

Unlike a special session, the budget session is convened pursuant to the provisions of the Constitution and not by proclamation of the Governor. Neither the Governor nor the Legislature nor either house has any power to enlarge the scope of a budget session. If legislation becomes necessary on any subject not authorized at a budget session by the Constitution, it can be considered only at a separate special session convened by the Governor for that purpose.

There is no constitutional requirement for a recess during the budget session as is the case at a general session. Each house may, however, recess for a period of more than three days, with the consent of the other house, pursuant to Section 14 of Article IV of the Constitution.

There is no constitutional limitation upon the number of bills which a member may introduce at a budget session, nor as to the time of their introduction, nor any requirement for consent of the house to introduce a bill. Regulations, if any, of this kind would be the subject of the Standing or the Joint Rules.

Budget Bill

At the 1948 Budget Session the Legislature may enact the Budget Bill for the succeeding fiscal year, that is, the general appropriation bill for expenditures to be made during the period from July 1, 1948, through June 30, 1949.

In this connection it should be noted that the Budget Bill may contain only items of appropriation and not general legislation. For example, it could not contain provisions authorizing the increase of a statutory salary, or providing for expenditure of funds for purposes not authorized

under other provisions of law. However, it would appear proper to include in the Budget Bill items to pay claims against the State such as are ordinarily considered in the form of separate claim bills.

The Budget Bill is the only appropriation bill specifically authorized. Any proposal for the appropriation of money to be spent during the ensuing fiscal year will have to be submitted as an amendment to the Budget Bill and not as a separate bill, unless the proposal can be enacted as an urgency measure.

Revenue Acts

"Revenue acts" are acts which affect the income of the State Government. The term is broader than merely "taxes," and the Legislature has broad powers to enact legislation affecting the income of the State. It may increase or decrease the rates of existing taxes, repeal tax laws, or enact new ones, and likewise increase or decrease license and inspection fees.

The Legislature could not, however, enact new regulatory legislation in a field not covered by existing law on the theory that such legislation constituted a revenue act.

The term "revenue acts" is used in the Constitution with reference to state expenditures contemplated by the budget and the Budget Bill, and hence does not authorize legislation affecting taxes or revenues of local governmental agencies.

Urgency Measures

Insofar as proposals for general legislation may be considered at a budget session, they can be enacted only in the form of urgency measures.

An urgency measure may be enacted only by a two-thirds vote of all the members elected to each house of the Legislature. Particular attention must be given to the nature of such a measure and to the restrictions imposed by Section 1 of Article IV of the Constitution. That section vests in the people the right of referendum as to all legislative acts with certain exceptions. These exceptions include "urgency measures," which are acts that go into immediate effect as "necessary for the immediate preservation of the public peace, health or safety." The facts as to such necessity must be set forth in a separate section of the bill which must be voted upon by separate roll call.

The Constitution further provides that "*no measure creating or abolishing any office or changing the salary, term or duties of any officer, or granting any franchise or special privilege, or creating any vested right or interest, shall be construed to be an urgency measure.*" In view of these restrictions, legislation cannot be enacted at a budget session which would create a new governmental agency or office or impose upon existing officers new duties or functions substantially different from those provided by existing law.

The question whether or not a particular legislative bill is an urgency measure (a measure necessary for the immediate preservation of the public peace, health or safety) has a significance at a budget session which it does not have at any other session of the Legislature.

At a budget session that question goes to the very power of the Legislature to enact the measure. At other sessions it is merely a question whether the act takes effect immediately and is not subject to the referendum, or 90 days after final adjournment and is subject to the referendum.

Clearly the responsibility for making a correct decision as to the facts of the necessity is correspondingly greater at a budget session than at any other session—a responsibility primarily that of the Legislature. Thus far, the courts have entertained an almost conclusive presumption in favor of the Legislature's finding of facts. It does not necessarily follow that the same degree of credit need be given to that finding when upon its accuracy the very power to legislate depends. Whether that presumption be maintained or modified, it is competent for the houses by rule to provide special facilities to aid them in the determination of the necessary facts whenever a proposed urgency measure is under consideration at a budget session.

Acts Calling Elections

Such acts are not frequent and may, perhaps, be necessary only when it is desired to place a constitutional amendment or other proposition on the ballot prior to, or concurrently with, the ensuing general election.

Constitutional Amendments

The Constitution does not impose limitations on the adoption of constitutional amendments by the Legislature at budget sessions. These may relate to any subject.

Such amendments adopted at the 1948 Regular Session will not automatically be placed on the 1948 November general election ballot, in view of the provisions of Sections 1502 and 1505 of the Elections Code relating to the time for the preparation and submission of arguments for and against proposed constitutional amendments. If it is desired that constitutional amendments adopted at the 1948 Session be placed on the ballot for the 1948 General Election, it would be necessary to enact legislation for that purpose, either by an act calling a special election or by an urgency measure which would make appropriate amendments to the Elections Code.

Charters

Proposed county or city charters and amendments thereto may be approved or rejected.

Expenses of Session

As to the expenses of the session, legislation may be enacted providing for the expenses of the session, such as contingent expenses of the two houses, legislative printing, and mileage and expenses of members and officers. The money so appropriated will be available only for expenses incurred in connection with the budget session itself. It would not be available, for example, for expenses of interim committees created by the 1947 Regular Session.

Legislative Committees

At a budget session, the Legislature or either house may create such standing or special committees as may be deemed necessary properly to carry out the business under consideration during the session.

It is questionable whether investigating committees can be created with power to act after final adjournment. The courts have held in substance that the creation of such a committee is an act of legislation even though accomplished by means of a resolution. The power to legislate at a budget session is limited to the subjects specified in the Constitution, defined by reference to types of legislative measures: The Budget Bill,

revenue acts necessary therefor, urgency measures, acts calling elections, constitutional amendments, charters and charter amendments, and acts providing for the expenses of the session. The resolution creating an interim committee is not one of them.

Perhaps so narrow a view of the interim committee power at a budget session is not necessary. It may be that such a committee could be created to study any phase of state revenues and expenditures, or the subject of any constitutional amendment proposed or urgency measure adopted at the same session. We deem the narrow view the safer. If a study proposed at a budget session is within the scope of the work of an interim committee created at the preceding general session, it would seem safer in law to instruct that committee to conduct the study, rather than to create a new committee for the purpose.

It is our opinion that at the budget session either house of the Legislature may augment the funds authorized for expenditure by interim committees heretofore created, insofar as money is available for that purpose. This may be done by a resolution authorizing such a committee to expend money previously allocated to another committee or by a resolution allocating money appropriated for contingent expenses in the 1948-1949 Budget Bill, which will become available on July 1, 1948. However, such allocations are not properly "expenses" of the budget session, and money appropriated pursuant to the constitutional authorization to provide for the expenses of the budget session could not be used for this purpose.

Nonlegislative Business

We are of the opinion that nonlegislative business, such as confirmation of appointments, may be transacted at a budget session without limitation, as at any other session.

MESSAGE FROM GOVERNOR EARL WARREN TO THE CALIFORNIA
STATE LEGISLATURE BUDGET SESSION

STATE CAPITOL, March 1, 1948

Mr. Speaker, Lieutenant Governor Knight, President pro Tempore Powers, Speaker pro Tempore Maloney and Members of the Legislature:

I welcome you back to Sacramento for this annual session under the constitutional amendment of 1946. It is an historic session, the first of its kind in the life of our State. It will be a precedent-making session, because what is done will make the pattern for future budget sessions.

The Constitution limits consideration in this session to the "Budget Bill for the succeeding year, revenue acts necessary therefor, urgency measures requiring a two-thirds vote, acts calling elections, proposed constitutional amendments, the approval or rejection of charters and charter amendments of cities, counties, and cities and counties, and acts necessary to provide for the expenses of the session."

I assume that this language was used by the Legislature in proposing the constitutional amendment for the purpose of preventing the budget session from becoming a regular session. In order to conform to the spirit as well as the letter, I sought the counsel of President pro Tempore Powers and of Speaker Collins. We were all agreed that the words "urgency measures" meant what they imply: Namely, emergency matters that cannot await the regular session.

I, therefore, shall refrain from recommending a legislative program at this session, despite the fact that I have in mind a number of measures that in my opinion could be called needed legislation. I shall, therefore, recommend to you only a few matters that appear to me to be urgent, leaving what may be merely desirable for the regular session next year.

Our State is confronted with a serious water and power shortage that threatens to ruin crops, slow down industry, and create unemployment. The Public Utilities Commission is taking whatever steps are open to it in order to minimize the effects of the shortage. However, regardless of what it may do, many hardships will be undergone unless a sizeable amount of power can be saved. The one way that appears to be feasible is through daylight saving. I know that many of our people object to this procedure in normal times, but those I have talked to recently are willing to undergo the inconvenience for the period of the drought because of the emergency conditions and for the common good.

I, therefore, urge that you give serious consideration at the earliest possible moment to the enactment of a daylight saving statute for a period of one year, with an automatic expiration date at the end of that time or sooner if conditions warrant it. I am told that the enactment of such a statute will save approximately the amount of electricity normally used by the City and County of San Francisco.

I also believe that the Legislature should determine the future of child care centers, which automatically expire on May 30th of this year. No new centers could be established since February 20th. These child care centers were established first by the Federal Government in wartime, but federal aid has long ago been discontinued, and they have since been maintained by the State on a year-to-year basis. If they are not to be maintained beyond May 30, 1948, provision must be made for the care of many of these children in another manner. Your committees have studied the matter exhaustively, and I am told that another study made by the University of California will soon be available to you.

Another activity originally established by the Federal Government and recently abandoned by it, now calls for consideration by the Legislature. In 1935, the Federal Government established farm labor camps for migratory farm labor in many parts of our State. They were continued thereafter as a war activity. Recently the government decided to close and dispose of them either to the State or to farmer or labor groups. Up to the present time it has been impossible to ascertain from the Secretary of Agriculture the price or conditions under which the sale will be made. It is imperative, however, that these camps remain open, as other housing is not available for the farm workers. I believe it is important for the Legislature to determine at this time what the policy of the State should be with relation to these camps. At the present time they are being operated under revocable leases by farmers' groups in the various communities.

Schools

The rapid increase in our population and the increasing birth rate in the past several years have swollen our school population far beyond the capacity of our present school plant to accommodate. The State has previously made available the sum of \$20,000,000 to assist impoverished school districts in constructing the buildings necessary to meet this load. Substantially all of this amount has already been allocated. It is far from sufficient to relieve the situation, and I am including in the budget \$30,000,000 additional for this purpose. Even this amount will eventually be inadequate but is all that is available from state finances.

In 1946 when the Legislature adopted the measure appropriating \$90,000,000 for a postwar building program for cities and counties, provision was made whereby this

money could be made available for use of schools. However, they have benefited scarcely at all from this source. In fact, of this huge sum, only \$517,870 has been allocated for schools. Over half of this \$90,000,000 is still unallocated, and I am suggesting that the Legislature investigate the possibility of making at least a part of the unexpended balance of this fund available for this pressing need. When all of the children born during the war years are ready for school, the classroom shortage will make the present housing shortage look mild by comparison. It is primarily a problem of local government and all local agencies should cooperate to the extent of their ability.

These are the only matters that I desire to call to your attention at this time. Should there be others during the time you are in session, I will communicate them to you by special message.

I will now discuss briefly the main purpose for which you are gathered here—the budget.

As has been the case with every Governor, almost without exception, at each regular session of the Legislature since our State was admitted to the Union, I must present to you the largest budget ever submitted to date. This invariable practice of Governors is not a matter of choice, but of necessity.

This rising curve of expenditure coincides with the most phenomenal growth ever experienced by any state in the history of our Country. It reflects the insistence of our people upon ever higher standards of education, public health, social welfare, institutional care, public works, and other necessary governmental services. It demonstrates the tendency to shift the costs of government from local taxation to state taxation. It represents the practice of increasing through constitutional amendment, initiative measures and legislative action, the fixed charges of government whereby state expenditures are controlled by legislative formula as distinguished from administrative discretion.

It also reflects the *inflationary* forces which have accelerated during recent years—the same forces that bear down so heavily on the budgets of all workmen, housewives, and businessmen.

But, beyond all of these factors, these expanding budgets mean that those of us who are charged with the administration of State Government are responding to the demands of a considerate and progressive people who want better standards of living, and a utilization and conservation of our great natural resources, as well as humane and efficient government. When our State Government does not move fast enough in this direction to suit them, the people themselves initiate and adopt their own legislation through the ballot box.

The growth of our State in recent years has been beyond the expectation or even imagination of anyone. According to census estimates, since 1940 our population has grown over three million people, the equivalent of a new city of 40,000 people every month for the past seven years. Two and a half millions of that increase have occurred since I was first elected to the governorship in 1942. To say merely that this growth has called for expansion in governmental activities, and has placed a strain upon state and local facilities, is an understatement. Whether it is our hospitals, our correctional institutions, our highways, our office buildings, our Capitol, our University, colleges or schools, we are crowded—often to the point of suffocation.

These conditions are aggravated, of course, by the fact that neither during the depression years of the '30s—when we also gained a million and a quarter in population—nor during the war, did we have a normal amount of construction to keep pace with need. Throughout the depression this was due to the fact that we did not have the funds, but, during the war and since, it was because we did not have the materials. Fortunately, during the war our revenues were high, and at my suggestion the Legislature wisely set aside reserves from the surplus to liquidate our bonded indebtedness and to provide a large construction fund to take care of our accumulated needs. These construction funds remain largely unspent, not because of lack of need, but because we have not wanted to contribute to inflation. We have not wanted to compete with home building, business and industry, for materials and manpower. Private enterprise needs these in order to maintain employment and production at high levels.

But some things cannot be delayed. In this budget, highway construction and other very essential work represent a sizable percentage of its total.

All of these factors change our budget-making, and it might be well at this time to make a comparison between our present budget and the expenditures of six years ago, in order to see where we are moving and why. It will demonstrate some of the trends and conditions I have mentioned. I select the expenditures of six years ago because the Fiscal Year 1943 was the first year of my administration.

The present budget, which I herewith submit to you according to the Constitution, represents a total of \$919,943,287. This is \$669,000,000 more than the \$250,861,000 of expenditures during 1942-43—a staggering increase. Now, let us see what accounts for most of that increase.

More than one-half of this increase represents payments to local government—the cities, the counties, and the school districts of our State—as required by law.

One hundred fifty-eight million, eight hundred thousand dollars of the increase represents the State's greater expenditures for the Public School System of California. Under the constitutional amendment proposed and adopted by the people in 1946, the State's support of elementary schools was doubled; its support of secondary schools

was increased 33 percent, and its support to kindergartens was provided for the first time. Under legislative enactments, the State also assumed the deficit in the Teachers Retirement System, and has undertaken to assist distressed school districts in meeting their building needs. In the meantime, school attendance has gone up by 43 percent—all of which adds up to an increase of \$158,800,000 in the budget now being submitted to you.

Sixty-three million, five hundred sixty-three thousand dollars of the increase represents increased subventions for social welfare. It results in part from a greater number of recipients of aid to the aged, the blind, and needy children. In 1948-49 there will be 60,000 more in these categories than in 1943. It will also be remembered that during that period old-age assistance was raised by the Legislature from \$40 to \$60 per month, aid to the blind from \$50 to \$75 per month, and aid to needy children from \$10.40 to \$23.80 per month. In addition, the Legislature transferred to the State additional financial responsibility formerly borne by the counties.

Seven million, four hundred ninety-five thousand dollars of the increase represents larger subsidies to local government in the field of public health for tuberculous patients, for hospital construction, for county and city health departments and for mosquito-abatement activities.

Thirty million, four hundred seventy-seven thousand dollars of the increase represents payments to local governments for sites, plans and construction of public works and for local costs of flood control projects.

Eighty-three million, four hundred six thousand dollars of the increase represents augmented payment of shared revenues to cities and counties. Most of this is found in the increased motor vehicle fuel tax and larger apportionments therefrom for county roads and city streets. The remainder of this item reflects the relinquishment by the State to the cities and counties of its former 50 percent of liquor license fees and of its share of motor vehicle license fees. Increases in other miscellaneous subsidies aggregate approximately \$2,800,000.

These items of increase, occasioned by subsidies to local government, aggregate \$346,600,000, or 52 percent of the increase over the Budget of 1942-43.

Because, during the depression and war years and while we were growing so rapidly, practically no building construction was undertaken, it is absolutely essential that many of the agencies of government be provided with additional facilities during the coming year. By far the greater part of the money for these buildings, while showing as an expenditure in this budget, will not come from current taxes. The people have paid for these improvements in prior years. The money for them is now in the building reserve funds. The total increase of these expenditures, and for highway construction, is \$181,300,000 over 1943.

This increase for construction added to the increase for subventions over 1943 totals \$527,900,000.

As a matter of fact, when all of these items, and other miscellaneous ones are accounted for, there remains for the operation of State Government during 1943-49 the total sum of \$222,741,000. This represents an increase of \$135,183,000 over the total expenditures for the same purpose in 1942-43. Now, let us see what some of the reasons are for that increase.

For the University of California, there is in this budget \$14,600,000 more than was spent for the same purpose in 1942-43. But, there will be 23,000 more students enrolled in 1948 than there were in 1942-43.

For the state colleges and special schools and the Department of Education, there is \$10,800,000 more than was spent in 1942-43. But, again, there will be 14,500 more students than at that time.

It will cost \$21,400,000 more to operate our mental hospitals and clinics than in 1943. The 40-hour week, salary increases and an additional 7,400 patients, as well as the increased cost of food and commodities and improved care for the 36,000 patients, account largely for this increase.

The expansion of the Highway Patrol from 970 to 1,290 officers, highway planning by the Department of Public Works for the new highway program, and the 1,250,000 increase in motor vehicle registration account for a six-year increase of \$22,800,000.

In the Department of Corrections, we have 4,800 more prisoners in our penitentiaries and wards in our youth institutions than we had in 1943. We have many new institutions to operate. The cost of operating these facilities now is \$10,400,000 more than was spent in 1942-43.

These four services alone account for \$80,000,000 of the increase over 1942-43.

One of the important factors in the cost of State Government since 1942 is the statutory salary increases which aggregate \$43,208,000 in the entire State Government. Another is the 40-hour week, established by the Legislature in 1947, which called for 1,700 new employees at an annual expense of \$8,000,000.

This is indeed a large budget, but it has been carefully prepared in a manner to promote the efficiency and to carry out the policies of the Legislature. It has also been kept in line with anticipated revenues in order that it will be a balanced budget. The normal expenditures from the General Fund are well within the estimated revenues.

State revenues of \$784,748,947 are estimated for the 1948-49 Fiscal Year on the basis of continuing the tax reductions effected in 1943, 1945 and 1947, which continuation I recommend.

This amount, plus allocations from the building reserves for construction, and from surplus for nonrecurring and abnormal items, is sufficient to finance this budget.

The accumulated General Fund surplus as of June 30, 1948, will be \$135,525,771. Of this sum, \$44,689,000 will be required to finance abnormal and nonrecurring items of expenditure in the 1948-49 Fiscal Year which I am recommending, such as additional aid needed by impoverished school districts.

I recommend that \$37,800,000 of this surplus be transferred to the Postwar Employment Reserve to finance the following future expenditure items which are not now covered in the State's postwar building program but which have been given the highest priority by the affected agencies:

University of California—To enlarge sewage plant at Davis; to provide a second engineering unit at Los Angeles and additional engineering laboratories at Berkeley; to extend utilities at Los Angeles to serve the additional buildings projected at that campus—\$5,000,000.

Department of Education—To provide additional needed funds for construction of buildings on new campus of Fresno State College—\$3,000,000.

California Youth Authority—To construct adequately and furnish complete facilities at Los Guilucos, Paso Robles, and north and south clinics—\$2,000,000.

Department of Corrections—To augment present inadequate funds for construction of medium security prison, vocational and medical facility, and to provide additional capacity at these institutions—\$5,500,000.

Department of Mental Hygiene—To permit completion of first new mental hospital and for expanding inmate capacity at Pacific Colony—\$8,300,000.

National Guard—To cover partially the additional cost of permanent statewide armory-building program—\$5,000,000.

Department of Finance—To provide for additional state office buildings in Sacramento—\$5,000,000.

State Agricultural Society—To provide additional needed funds for construction at new State Fair site—\$4,000,000. The urgency of this is connected with the possible use of the present site by the new Sacramento State College.

It will be necessary to reserve in the General Fund as of June 30, 1949, the sum of \$33,000,000. This will provide for balances in appropriations made at prior legislative sessions which will remain unexpended but still available for expenditure after the close of the next year.

After making this transfer and this reservation, there will remain in the General Fund a free and uncommitted surplus of \$20,037,000. This amount is available for appropriation by the Legislature for items on which legislative policy is to be determined, such as child care centers, provision for new state colleges, the construction of academies authorized at the last session of the Legislature, and other expenditures.

In closing, I want you to know that I am in sympathy with those who are seeking to keep taxes down. I initiated the tax reductions of 1943, 1945, and 1947. The accumulated savings to the taxpayers under these statutes amount to \$422,000,000. I urge you to pass the same tax reduction bill this year. It will save the taxpayers another \$119,000,000. I would go even further if I believed our financial condition would warrant doing so. However, all of the expert advice I have received is to the effect that we should not be more optimistic concerning anticipated revenue than we have been in the preparation of this budget. Should a recession occur, our income would be cut substantially and we would be forced to draw upon our reserves. We have a "rainy day fund" for that purpose and it should be faithfully preserved until it is actually needed, but we should not voluntarily place ourselves in a position where we are obliged to spend it. To touch the building reserves would be immoral, because as large as those reserves are they are far from sufficient to take care of the building deficiencies which accumulated during the years of depression and war, while we were growing faster than any other part of the Nation. If we should spend this money for purposes other than to build our governmental plant in keeping with the times and adequate to our greatly increased population, the people of our State would pay dearly for our shortsightedness for at least a generation. In this connection, it should be remembered that the money in our building reserves will buy only half of what it would buy six years ago because construction costs are now double what they were then.

Members of the Legislature, I submit this budget to you as having been honestly made in accordance with your policies and the needs of our people. I say your policies, not to distinguish them from my own, because we have worked together in planning a solvent future for our State. With one notable exception, I have signed every bill since 1942 which affects this budget. I refer to your policies, only to emphasize that our government is a cooperative enterprise. You make the policy for spending. We spend accordingly. I am happy to say that not only is this a balanced budget, but during the past few years provision has been made for paying off our bonded indebtedness and

for establishing reserves that will cushion a depression and in a large measure take care of building needs. We have kept on the narrow road of solvency and have reduced taxes as we went along.

I wish you success in your work and offer you every cooperation.

EXETER, CALIFORNIA, December 17, 1947

Mr. J. A. Beek

Secretary of the Senate

MY DEAR MR. SECRETARY: The memoriams honoring Frank arrived safely. I never saw anything so beautiful. As one of the boys said, as he sat silently looking at it, "That is something to be proud of"—and I know we all feel the same way. They will be handed down to his children's children for generations.

We are indeed grateful to the California Legislature, and to Senator Williams in particular.

I can't help thinking how pleased Frank would be; and perhaps he knows.

Very sincerely,

M. OLIVE MIXTER
(MRS. FRANK W. MIXTER)

STATE OF CALIFORNIA, DEPARTMENT OF EDUCATION

March 1, 1948

President of the Senate

California State Legislature

State Capitol, Sacramento, California

DEAR SIR: Pursuant to Chapter 1565 of the Statutes of 1947 which requires that "The Director of Education shall submit a budget to the 1948 Session of the Legislature including funds for the construction, equipment and operation of the California Academies," and that "The Director of Education shall appoint, and fix the salary of, a full-time director over all such schools," I submit herewith the following budget for the 1948-49 Fiscal Year:

Acquisition of sites for three academies	\$300,000
Construction of necessary buildings for three academies	3,106,548
Improvement of grounds for three academies	324,000
Equipment for three academies	323,580

Total\$4,054,128

State administration under the Department of Education 12,641

Total\$4,066,769

Each academy, as planned, will be built and equipped for an initial enrollment of 120 pupils and a final maximum enrollment of 240 pupils.

The budget estimates for sites, construction and equipment have been prepared with the assistance of the State Department of Finance and the Division of Architecture of the State Department of Public Works.

No budget is submitted at this time for the actual operation of these academies during the 1948-49 Fiscal Year because in view of the program of building construction in which the State is currently engaged it appears extremely unlikely that the academies will be prepared to enroll pupils prior to July 1, 1949.

The administrative cost for the Director of the California Academies is included in the budget for the 1948-49 Fiscal Year because his services will be needed in planning and supervising the construction of the buildings and the selection of appropriate equipment as well as in processing the staff for each academy.

A more detailed estimate of the cost of building construction, grounds improvement and equipment for one academy is attached to this communication.

Respectfully submitted.

ROY E. SIMPSON

Senate Concurrent Resolution No. 5

Relative to the adjournment of the Legislature
in respect to Senator Herbert W. Slater

By Senators McCormack, Quinn, and Tanzer

WHEREAS, An all wise Providence decreed that on August 13, 1947, one of the most beloved and respected of California legislators, the Honorable Herbert W. Slater, should be called from his earthly duties; and

WHEREAS, Senator Slater was born at Hereford, England, on August 20, 1874, the son of a clergyman, attended Collegiate School and College in England, came to America and settled in California at an early age, residing for a brief period in Los Angeles, San Francisco and Vallejo before becoming a permanent resident of Santa Rosa, a city he loved and esteemed as his home; and

WHEREAS, Senator Slater was engaged in newspaper work, having advanced from a position as reporter to that of editor of the Santa Rosa Press-Democrat, a position which he held and in the pursuit of which he was actively engaged at the time of his death; and

WHEREAS, Senator Slater was elected to the Assembly of California in the years 1910 and 1912, serving as Assemblyman with such distinction that his constituents in 1914 elected him to the Senate, to which office he was continuously reelected for succeeding terms, having been last elected in 1946, thus establishing a record for length of service in the California Legislature, a total of approximately 37 years; and

WHEREAS, In addition to his outstanding legislative record and the service he rendered his profession, Senator Slater also faithfully served his community and the State in numerous other capacities, including membership on the Board of Managers of the Sonoma State Home and as chairman of the local draft board; and

WHEREAS, Senator Slater was one whose kindly spirit and ardent affection endeared him to all who were privileged to know him; deprived of the blessing of physical sight, he kept the light of Christian faith and love burning so brilliantly within his soul as to radiate brotherly affection to all with whom he came in contact; and

WHEREAS, In a kindly tribute paid to Senator Slater, Leland W. Cutler wrote the following words which appear in the Senate Journal of June 20, 1947:

"Although God took from Herbert one of His greatest gifts, He gave him back a compensating one. Herbert cannot see the color and the form of life, nor with his eyes watch men come and go, but compassed clear within his mind is the understanding of it all. As men take pictures home to contemplate when the day is done, so Herbert in his blindness muses clearly upon all the things he loves. God made him sensitive to fairness and to chivalry and to the quiet exchange of banter which only friends can give and only friends can take.

We want Herbert Slater to live beyond life's day but never reach the dusk, and as he travels toward the shadow of the night may the clear bright light of friendship's star twinkle fair above the tranquil dawning of an Everlasting Day"; and

WHEREAS, In this beautiful tribute the Members of the California Legislature concur and deeply mourn the passing of their beloved member; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring. That when the Legislature shall adjourn for this second day of March, 1948, it shall do so in honor of Senator Herbert W. Slater; and be it further

Resolved, That the Secretary of the Senate be, and he is, hereby directed to have prepared suitable engrossed copies of this resolution, and to present one to the sister and one to each of the surviving brothers of Senator Herbert W. Slater.

ADJOURNMENT

At 2.50 p.m., on motion of Senator Powers, the President declared the Senate adjourned until 1.30 p.m., Wednesday, March 3, 1948, out of respect to the memories of the late Honorable Herbert W. Slater, Honorable Richard E. Collins, and Honorable James E. Thorp.

Thereupon, no member shall be permitted to leave the Senate Chamber except by written permission of the President pro Tempore or in his absence of the presiding officer. Those members who are found to be absent and for whom no excuse or insufficient excuses are made, may, by order

of those present, he taken into custody, as they appear, or may be sent for and then taken into custody by the Sergeant-at-Arms wherever found, or by special messenger to be appointed for that purpose. In the absence of a quorum, a majority of the members present may order a roll call of the Senate and compel the attendance of absentees in the manner above provided.

A call of the Senate may be ordered after the roll has been called and prior to the announcement of the vote.

No recess can be taken during a call of the Senate. During a call, the Senate may consider and transact any matter or business that the Senators then present shall unanimously decide to consider, but no call of the Senate shall be had during a call of the Senate, except that during a call which was ordered for the purpose of procuring sufficient attendance for the conduct of business of the Senate in general and not for any other purpose, such call may be made to apply also to not more than one item of business by motion made and adopted by a majority vote of the members present after the roll has been called and prior to the announcement of the vote on such item of business. Under such circumstances, when the call of the Senate is dispensed with as to the item of business to which it is so applied it shall be deemed dispensed with as to the purpose for which it was originally made. When a call of the Senate is ordered, pending the announcement of the vote upon the completion of a roll call, the pending roll call shall become unfinished business, the consideration of which shall be continued until further proceedings under the call of the Senate are dispensed with, when it will forthwith become the order of business before the Senate.

Reconsideration

43. On the day on which a vote has been taken on any question a motion to reconsider the vote may be made by any member.

The motion may be considered on the day made or on the succeeding legislative day but may not be further postponed without the concurrence of 27 members.

When reconsideration of the vote by which any bill was passed has been demanded the Secretary shall not transmit it to the Assembly until the demand has been disposed of or the time for reconsideration has expired, but if the bill has already been transmitted to the Assembly the demand for reconsideration shall be preceded by a motion to request the Assembly to return the bill. This motion shall be put to a vote immediately without debate and if not adopted shall preclude a demand for reconsideration.

A demand to reconsider the vote on any debatable question opens the main question to debate and the vote on the reconsideration shall be on the merits of such main question.

The committee shall consist of three Members of the Senate, appointed by the Senate Committee on Rules, and five Members of the Assembly, appointed by the Speaker.

If the bill is an urgency measure, the committee shall hold such hearings as are necessary to determine whether facts exist that require the enactment of the bill, to take effect immediately as necessary for the immediate preservation of the public peace, health, or safety, pursuant to Section 1 of Article IV of the Constitution. The committee shall also determine whether those facts are adequately and correctly set forth in the urgency section of the bill. Any bill referred to the committee may be withdrawn from it by the house in which it was introduced after two days' notice of intention to move for such withdrawal and by a two-thirds vote of all the members elected to such house.

The Senate and Assembly Members of the committee shall vote separately in all proceedings of the committee, and it shall require an affirmative vote of two of the Senate Members and three of the Assembly Members to take any action.

Senate Joint Resolution No. 4

Relative to memorializing Congress and the President of the United States in relation to migratory game birds

WHEREAS, Pursuant to treaties of the United States with Great Britain and Mexico, the jurisdiction to regulate the taking of migratory game birds is vested in the Congress of the United States and has been exercised by the enactment of the Migratory Bird Treaty Act; and

WHEREAS, Said act provides for the making of regulations to carry out its purposes, which regulations are now made by the Fish and Wildlife Service in the Department of the Interior and become effective when approved by the President of the United States; and

WHEREAS, In formulating such regulations said act requires that due regard be taken to "the zones of temperature" as well as distribution and other factors, and this has resulted in the establishment of zones running in general from east to west; and

WHEREAS, In relation to wild ducks it has been established that there are four principal flyways running north and south across the country from Canada to the Caribbean Sea, Mexico, and even further south, that each of these flyways has its own population of ducks, and that there is little change from one flyway to another, with the result that each flyway presents its own problems of conservation, independent of the others; and

WHEREAS, the State of California lies in the Pacific flyway which runs from Alaska and the northern part of Canada south across the western part of the United States and into Mexico and farther south, and it is only in relation to this flyway that the conservation of ducks in California can properly be carried out; and

WHEREAS, The regulation of wild fowl, and particularly wild ducks, in California in relation to other areas of the United States lying along flyways other than the Pacific does not take into consideration the relative independence of the several flyways nor the fact that the duck population in any given area depends upon conditions up and down its particular flyway, rather than in areas lying in the same zones of temperature on other flyways; and

WHEREAS, Senate Bill No. 2199 and House of Representatives Bill No. 5493 provide for the amendment of said act to provide that regulations adopted pursuant thereto shall be based on conditions existing within each area, section, or flyway; and for the creation of a Migratory Game Bird Advisory Committee; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly. That the Congress and the President of the United States are urged and memorialized to enact the legislation incorporated in Senate Bill No. 2199 and House Bill No. 5493; and be it further

Resolved, That the Secretary of the Senate is directed to transmit copies of this resolution to the President of the United States, to the President of the Senate and Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

MOTION TO PRINT REPORT

Senator Tenney moved that the following Partial Report of the Fact-Finding Committee on Un-American Activities be printed in the Journal in 10-point type:

Motion carried.

PARTIAL REPORT OF THE SENATE FACT-FINDING COMMITTEE ON UN-AMERICAN ACTIVITIES IN CALIFORNIA

To the Honorable Goodwin J. Knight

President of the Senate

and Senate Members:

The chairman of this committee received the following resolution from the City Council of the City of Fairfax in Marin County, California, on or about the tenth day of August, 1947:

Resolved, That the City Council of the City of Fairfax, County of Marin, State of California, in its investigation on Communism and

Un-American Activities, request help and assistance from the State of California, through the California State Fact-Finding Committee on Un-American Activities, California State Legislature.

Pursuant to this resolution a subcommittee of the Senate Fact-Finding Committee on Un-American Activities headed by its vice chairman, Senator Hugh M. Burns of Fresno, conducted a one-day hearing in Fairfax on October 23, 1947. Witnesses who were subpoenaed and testified include Ernest Besig, Elsa Gidlow, Leslie A. Grosbauer, Sydney Hall, John L. Rockwell, and Clarice Eleanor Stevens.

It appears from the record that Leslie Grosbauer was authorized and directed by the City Council of the City of Fairfax to make an investigation into alleged un-American activities in the city.

Mr. Grosbauer, a member of the City Council of the City of Fairfax, and formerly the mayor of the city, testified that he had met Elsa Gidlow in March of 1946 when she was prominent in the organization of a group which became known as the Fairfax Residents and Taxpayers Association. He stated that the association sponsored three candidates for election to the city council who were ultimately elected, John L. Rockwell, one of these candidates, became chairman of the council and appointed Elsa Gidlow to the city planning commission.

After Grosbauer had resigned as mayor, remaining a member of the city council, he was appointed by his successor, Mayor Charles F. Campbell, to make an investigation of Elsa Gidlow and Communist activities in the City of Fairfax.

Grosbauer introduced into the committee record a photostatic copy of the September, 1939, issue, volume 1, number 4, of the Communist publication, *Black and White*. The photostat revealed the following information: Editor: Wilbur Needham; Managing Editor: Edward Wall; Business Manager: Evans Stanwood; Associate Editors: Cedric Belfrage, Robert A. Brady, Haakon Chevalier, Philip Dunne, Elsa Gidlow, Helen Hosmer, Carey McWilliams, Dolph Winebrenner, Donald Ogden Stewart, Bill Rogers, Louis R. Huber, and Ella Winter.

Grosbauer also offered into evidence a photostatic copy of a letterhead of the Communist Schneiderman-Darey Defense Committee. Among other names included on this letterhead is the name "Elsa Gidlow." Also accepted in evidence is a photostatic copy of a pamphlet entitled "Censored News—The News That the Press Won't Print." The pamphlet was issued by the Schneiderman-Darey Defense Committee.

Grosbauer testified that a Captain Henry Hemingway, who had appeared frequently before the Fairfax City Council in tirades of abuse against Grosbauer, gave a party at his home attended by Councilman May Hax, Miss Elsa Gidlow, Ernest Besig of the American Civil Liberties Union, and Mrs. Isabel Quallo. He stated that the *Marin* newspaper stated that the "decorations for the occasion featured various shades of red."

The Fairfax hearing of the Senate Fact-Finding Committee on Un-American Activities was continuously interrupted by Morse Erskine, attorney for Elsa Gidlow.

Mrs. Clarice Eleanor Stevens testified that she had several conversations with Elsa Gidlow, and that the first conversation took place

during the formation of the committee that organized the Fairfax Residents and Taxpayers Association. Mrs. Stevens testified that she had discussed the procedure for the opening of the Fairfax Residents and Taxpayers Association meetings with Elsa Gidlow and others and had suggested that such meetings be opened with a pledge of allegiance to the Flag, the playing of the national anthem, to be followed by "perhaps a short prayer." She testified that her suggestions were stormily objected to and that she was told that "That was carrying things just a little bit too far."

Sydney Hall testified that his wife was Robin Hall, and identified a photograph of Mrs. Hall which appeared in the *People's Daily World* for September 19, 1947. He identified the name "R. A. Hall, organizational secretary, Communist Party, Marin County, P. O. Box 271, Sausalito, California," as that of his wife, Robin Hall. He admitted that both himself and his wife are members of the Communist Party. His wife had disappeared and he stated he did not know where she was; that he had not seen her for about two weeks.

John L. Rockwell, an attorney, member of the city council and formerly Mayor of the City of Fairfax, testified that the city had been divided into two camps during the past two years and the people had been engaging in a "rather intense and protracted political fight." He stated that he had appointed Elsa Gidlow to the City Planning Commission when he was chairman (or mayor) of the city council. He had met Miss Gidlow some time in October, 1945.

Rockwell admitted that he had been a member of the Communist American Student Union when attending the University of California. He admitted that he had known Hazel McKanney (now Mrs. Aubrey Grossman, wife of the educational director of the Communist Party in San Francisco) when attending the university. He denied having been arrested by the Berkeley police during a demonstration on the campus in March of 1935. He stated that he was reprimanded by the police for handing out handbills for a meeting, but that he was not arrested.

Rockwell admitted that he had subscribed to the Communist Party periodical, the *People's Daily World*.

John L. Rockwell testified before the Yorty Committee during its investigation of subversive activities in the State Relief Administration in March, 1940. At that time Rockwell was an employee of the State Relief Administration. He also was a member of the Communist initiated and controlled State, County, and Municipal Workers of America. He was an associate of Gene Chance and Communist Bronislaus Joseph Zukas, who was convicted and served a jail sentence for contempt of the Yorty Committee. He recalled that John E. Jeffrey was the president of the State, County, and Municipal Workers of America when he was a member in Visalia. He remembered that Communist Alexander Noral was state president of the Worker's Alliance of America.

Rockwell admitted having been president of the Students Rights Association, an organization that protested the expulsion of Communist Celeste Strack from the University of California. (*Western Worker*, November 12, 1934.)

Elsa Gidlow testified that she had been a delegate to the Communist Western Writers Congress in San Francisco. She admitted having attended luncheons of the Communist Inter-Professional Association in 1937, and that she edited the Inter-Professional Association Bulletin. She attended meetings of the Communist John Reed Club in San Francisco. She admitted that her name was listed as associate editor of the Communist publication, *Black and White*, but stated that she had never been active in that capacity.

Miss Gidlow testified that she was acquainted with Prof. Robert A. Brady and Prof. Haakon Chevalier. She did not remember having been affiliated with the Communist front, the Academic and Civil Rights Council of Northern California (said to be a Communist front by no less an authority than Ernest Besig of the American Civil Liberties Union), although she was shown a letterhead for October 29, 1940, on which her name was listed. She stated that she was unaware that her name had appeared in issues of the Communist publication, the *People's Daily World*. (March 30, 1940, October 29, 1940, and November 23, 1940.)

She admitted knowing Andree Rexroth and stated that she believed that the woman was a Communist. Miss Gidlow admitted having been a member of the Schneiderman-Darey Defense Committee. She stated that Andree Rexroth had once asked her to join the Communist Party but that she had refused. She declared that she was "definitely opposed to the Communist Party."

The committee finds that the officials of the City of Fairfax had good reason to believe that the Communist Party was doing its level best to create a chaotic situation within that city. Councilman John L. Rockwell's record indicates his sympathies for Communist organizations, individuals and causes. He offered no clear cut statement concerning his own attitude toward Communists or the Communist Party.

The committee finds that Elsa Gidlow was affiliated in one capacity or another with the following Communist organizations: Western Writers Congress, Inter-Professional Association, John Reed Club, *Black and White*, and the Schneiderman-Darey Defense Committee.

Some Communist front organizations cleverly conceal their character by the use of high sounding names, such as the Western Writers Congress or the American League for Peace and Democracy. One might plead ignorance in joining such organizations. The members of this committee, however, believe that membership in such fronts as the Free Browder Committee or the Schneiderman-Darey Defense Committee is prima facie evidence of sympathy and supporting interest in the cause represented by such traitorous individuals as Browder, Schneiderman, and Darey. No person in his good senses would knowingly rush to the defense of the enemies of his Country. A person would have necessarily been a moron if he did not know that Schneiderman and Darey were Communists. Certainly Elsa Gidlow knew that she was supporting and defending Communists when she became a member of the Schneiderman-Darey Defense Committee. She does not contend that she is ignorant of the conspiratorial, criminal purpose of the Communist Party, and she wouldn't be believed if she made such an assertion. When

membership in a Communist front, such as the Schneiderman-Darcy Defense Committee is established, and it is then shown that the individual in question is affiliated with other Communist fronts, individuals and causes, a pattern of Communist fellow-traveling immediately follows.

The committee, long ago, concluded that the Red Card of Communist membership proved nothing more than formal affiliation. The most important Communists are not issued inculminating documentary evidence. The real test, in the final analysis, is *activity*. When an individual is known to be associated with Communist organizations, individuals and causes over a period of years; denounces everything but Communism, condemns the United States while praising Soviet Russia together with the other activities advocated by the Communist Party, that individual is a Communist whether they have a book signed by Joe Stalin or not.

The committee finds that the Communist Party is making appreciable headway in its drive in Marin County. Advertisements carried in the county's papers signed by R. Hall (Robin Hall), the organizer of the Communist Party for that county, illustrates the usual Communist technique in its "vanguard role of the proletariat."

The committee observes that the Rockwell-Gidlow axis in the City of Fairfax is a familiar maneuver of Communist Party strategists. Don Healy, husband of Dorothy Healy, organizing secretary of the Communist Party of Los Angeles County and former Communist head of Labor's Nonpartisan League, was successful in securing an appointment to the Planning Commission of the City of Los Angeles.

The majority of the members of the City Council, City of Fairfax, Mayor Charles F. Campbell and Councilman Leslie A. Grosbauer, are to be congratulated on their vigilance in attacking the forces that are determined to destroy, not only Fairfax and California, but the United States of America as well.

Respectfully submitted.

MOTION TO PRINT REPORT, AND LETTER OF TRANSMITTAL

Senator O'Gara moved that the letter of transmittal of the Report by the Department of Public Works Regarding Freeway Evictions be printed in the Journal, and the report printed in the appendix to the Journal, and that 1,000 additional copies of the report be printed.

Motion carried.

Letter of Transmittal

STATE OF CALIFORNIA, DEPARTMENT OF PUBLIC WORKS

SACRAMENTO, March 5, 1948

*Hon. Gerald J. O'Gara, State Senator**Capitol Building, Sacramento, California*

DEAR SIR: In accordance with your request, I am submitting attached hereto for your consideration and study, a complete record of all occupants of residential buildings affected by freeway and Division of Highways office building construction, within the State of California.

In submitting this report, I respectfully call your attention to the fact that some 18 months ago when freeway construction in the metropolitan area of Los Angeles was started on a large scale, resulting in the necessary relocation of several hundred families, several Freeway Eviction Committees—some well intentioned and well guided, others with ulterior motives—came into existence and at that time Governor Earl Warren established a strict policy to the effect that “no tenant in a residential building will be evicted unless it is established that he has a reasonably comparable place to move, even if it is necessary to delay the freeway construction project.”

This announced policy of Governor Warren was strongly concurred in by Director of Public Works C. H. Purcell and State Highway Engineer G. T. McCoy, as well as the California Highway Commission, and I wish to assure you that the Right of Way Department of the Division of Highways has adhered strictly to this rule, notwithstanding any claims of affected tenants or publicity to the contrary.

I am certain that your fair-minded attitude in all controversial problems such as the subject one will recognize the difficulties with which we have been confronted in clearing right of way so that freeway construction may proceed.

I am also certain that when you have studied the report carefully, you will recognize that our right of way men in the field have been most courteous and considerate in their treatment of affected families, and that they have in accordance with instructions, cooperated to the fullest extent with affected families in making the necessary changes in location of residential accommodations to represent a minimum of inconvenience.

You will also, upon studying the report especially that portion referring to San Francisco, find that in the face of our all-out efforts to cooperate with affected tenants, we have by no means received the same spirit of cooperation from those affected.

The attached report covers the four metropolitan areas, namely, San Francisco, Oakland, Los Angeles and San Diego, followed by the same statistical data in the smaller cities, and your particular attention is called to the fact that no information is submitted covering our District I with headquarters at Eureka and consisting of Del Norte, part of Siskiyou, Humboldt, part of Trinity, Mendocino and Lake Counties; our District II with headquarters at Redding and consisting of part of Siskiyou, part of Trinity, Lassen, Modoc, Shasta, Plumas and Tehama; and our District IX with headquarters at Bishop and consisting of Mono, Inyo and the

southeasterly part of Kern County, for the obvious reason that there are no projects listed in these counties that will affect more than a very few residential buildings on each project, all of which with perhaps one or two exceptions, will be moved back and rehabilitated on the remaining portion of the affected property.

The report covers only freeway projects including a few limited freeway projects in rural areas. However, in this latter category, practically 100 percent of the residential buildings are moved back to the remaining portion of the property from which the right of way is taken, and rehabilitated, which represents no loss of housing accommodations.

Your attention is directed to the summation following our report, which is submitted district by district and will give you complete information as to the number of residential buildings affected, total number of housing units within these buildings, total number of families and total number of persons.

The report will also give you the percentage of the total number of affected residential buildings which are capable of being relocated on other lots and rehabilitated so that there is no loss of housing in these cases to add to the critical housing shortage that exists in California, principally in the Bay area, the Los Angeles metropolitan district, and in San Diego.

Under our present policy in the metropolitan districts, all residential buildings capable of location to another site and rehabilitation, are sold at public auction with the successful bidder being required, if necessary, to provide temporary housing for the tenants in possession during the relocation of the building improvement, and permit the tenants upon completion of rehabilitation work at the new site, to occupy the premises for a minimum period of six months, at the established OPA rental.

In those cases where the affected buildings are not in such condition that relocation and rehabilitation is justified, the report will contain a statement as to what disposition is being made of the affected tenants.

While we recognize the fact that the Los Angeles County metropolitan area just has come through the most acute and critical housing shortage in the history of our Nation, you will be very much interested in the figures which are supplied showing the number of tenants who have been protected by the condition subsequent requiring the successful bidder who is the purchaser of the building to supply housing facilities to the tenants, who have in turn sold this right to the successful bidder and proceeded to find other housing facilities.

In this connection we call your attention to the fact that the agreement which the successful bidder signs with the Division of Highways is supported by a guaranty faithful performance bond in the minimum amount of \$1,000 and increasing in proportion to the number of families in the building improvement which is the subject of the sale.

We will appreciate an opportunity to discuss this report with you at your convenience and supply you with additional information should you desire same.

We have, however, attempted to make the report as complete as possible, covering the period from the termination of the war to and including the next five year period.

Very truly yours,

G. T. McCOY, State Highway Engineer

By FRANK C. BALFOUR, Chief Right of Way Agent

The following communication was received and read, and on motion of Senator Hatfield, ordered printed in the Journal:

OPINION OF LEGISLATIVE COUNSEL

STATE OF CALIFORNIA, OFFICE OF LEGISLATIVE COUNSEL

SACRAMENTO, March 7, 1948

Hon. George J. Hatfield
Senate Chamber

Senate Contingent Expenses—No. 212

DEAR SENATOR HATFIELD: You have asked for our opinion on two questions relating to the above subject. The questions and our answers are separately set forth below.

I.

Will the appropriation for contingent expenses of the Senate in the 1948 Budget Act "feed" the allocations previously made by the Senate to its interim committees?

In our opinion the answer to that question is in the affirmative.

Resolutions allocating funds to Senate committees have uniformly used the phrase "from the Contingent Fund of the Senate". The allocations have never, to our knowledge, designated the particular appropriation from which they are to be paid. Actually the Contingent Fund of

the Senate is merely the sum of all moneys appropriated for the contingent expense of the Senate and committees composed in whole or part of members thereof. An allocation to a particular Senate committee is merely an authorization by the Senate to the committee to expend any moneys available for the contingent expenses of the Senate and its committees, up to the amount specified by the allocation resolution.

When an appropriation "lapses" (as a Budget Item generally does at the expiration of the fiscal year) it merely results in a decrease of the amount of "contingent expense" money available for the use of the committees. Similarly, new appropriations for contingent expenses augment the moneys available for such purposes, and would be available for payment of the committee's expenses up to the amount authorized by the allocation.

Of course if the resolution making the allocation designated the particular "appropriation" from which it should be paid, no money would be available to that committee when the designated appropriation "lapsed".

II.

If an unexpended balance remained in the Stats. 1947, Ch. 873 appropriation when the 1949 session convenes, could such balance be allocated by the Senate to the new 1949 Senate Rules Committee? If so, how can that best be done?

In our opinion such balance may be allocated to any committee chosen by the Senate, by appropriate resolution.

As mentioned above, the Senate Contingent Fund is merely the aggregate of moneys appropriated and available for contingent expenses of the Senate. As such it may be disposed of by the Senate for such expenses in any manner it chooses and to any committees it selects.

Allocations of this sort are generally made by Senate resolution, and we believe that would be the most effective procedure in the present case.

Very truly yours,

FRED B. WOOD, Legislative Counsel

By A. C. MORRISON, Deputy

RESOLUTIONS

The following resolution was offered:

By Senator Hatfield:

Senate Resolution No. 29

Resolved by the Senate of the State of California, That, until otherwise designated by resolution adopted by the Senate Committee on Rules, Clarence D. Alexander, the fiscal officer of the Senate Committee on Rules (created by the Standing Rules of the Senate at its 1947 Regular Session) is hereby recognized and designated as the

REQUEST FOR UNANIMOUS CONSENT

Senator Rich asked for, and was granted, unanimous consent to have the following statement explaining Senate Bill No. 1, printed in the Journal :

STATEMENT BY SENATOR RICH EXPLAINING SENATE BILL NO. 1, THE BUDGET BILL, ITS RELATION TO THE GOVERNOR'S BUDGET AND THE FINANCIAL CONDITION OF THE STATE, MARCH 15, 1948

Mr. President and Members of the Senate

The Senate Finance Committee has reported out with a recommendation do pass Senate Bill No. 1, the Budget Bill. It is now before you. There is also on your desk a mimeographed copy of the Legislative Auditor's report analyzing the Budget Bill as it was introduced.

Finance Committee as an Interim Committee

The Finance Committee under the provisions of the Senate Rules has acted as an interim committee and continued on as a standing committee considering the Budget Bill. In the early part of the year the Director of Finance consulted the chairman of this committee and the Chairman of the Assembly Ways and Means Committee and it was concluded that for the work of these committees in considering the budget during the 1948 Regular Session, the first Budget Session, it would be desirable to receive a preprint of the Budget Bill, and that portion of the budget document on which it was based, at the earliest possible date. [It was agreed that for the processes of the work of the interim committees the balance of the budget document would be deferred until the convening of the Legislature.]

Instructions were given by the Budget Committee to the Legislative Auditor to follow the same procedure as previously, and work closely with the Director of Finance in the budget preparation and to have an analysis of the Budget Bill and the budget available for the use of the committee in considering the budget, not later than February 16, 1948.

[Subsequent results justified the procedure determined upon.] The Finance Committee received the preprint of the Budget Bill and that portion of the budget covering it on February 16, 1948, in printed form. At the same time it received mimeographed reports of the Legislative Auditor covering the Budget Bill. These had all been produced as a result of intense efforts on the part of the Director of Finance, the Legislative Auditor and their staffs.

Procedure Followed

The committee met on February 16th and was divided into subcommittees to cover the several assigned parts of the budget. All departments of State which wished to appear on their budgets were notified and were heard by the several subcommittees. [Some of these hearings were protracted.]

It was the policy of the committee and subcommittees to produce as much economy as possible without injury to any part of the state service. The recommended changes in the budget are not drastic or are the reductions as much as might be expected. This results in part from the fact that the budget this year is better prepared than in prior years and from the fact that the entire expenditure program presented by the several state departments was materially reduced in the budget hearings by the Director of Finance and participated in by the Legislative Auditor and his staff. Many millions of dollars were cut out of the budget at these hearings.

The committee has functioned continuously from February 16th to and including March 12th, when it concluded its work and the appropriation bill as amended was sent to the floor of this House. *The recommendations and decisions of the committee were not always unanimous, but all amendments represent the action taken by its majority. It is anticipated that each of its members will be opposed to some of the committee's many actions.*

The Budget and the Budget Bill

The Governor's Budget as submitted to the Legislature represents a total of \$919,943,287, an increase of \$148,597,324 over the final expenditure program of \$771,345,963 approved for this fiscal year, and an increase of \$179,944,328 over the estimated expenditure of \$739,998,959 for the current Fiscal Year 1947-48. This is an increase of 24 percent over expenditures for 1947-48. The Budget Bill, Senate Bill No. 1, as introduced totaled only \$265,024,801, that is, excluding Items 384 to 389 which provide for the San Francisco Harbor and disability insurance, which are really separate business functions of the State.

I wish to call your attention to the fact that while the Governor's Budget is approximately \$920,000,000, the Budget Bill, or the amount which the Legislature deals with, totals only \$265,024,801, or 29 percent of the total budget. The remainder, consisting of \$655,000,000, or 71 percent, is made up of what is termed fixed charges.

These fixed charges are in general not controlled by the Legislature, for they are made up of appropriations required by constitutional provisions or by continuing legislation. The Legislature must for the most part economize within the appropriation bill of \$265,000,000. It is clear that no major economy program or major reductions and expenditures can be made by the Legislature within this limited scope, for in it we must provide for the ordinary operations of State Government — for example, for the Legislature, for the courts and for the executive departments of the state administration, including the Department of Finance, Department of Public Health, the Department of Social Welfare, the Department of Mental Hygiene and the other major departments, the many institutions and the University of California. All of the government administration and functioning agencies of the State Government itself fall within this limited expenditure program.

On the other hand, the principal fixed charges which require no action of the Legislature for appropriation are principally made up of the allocation for schools and education which in this budget calls for \$195,993,954. This is a constitutional provision. There is also the requirement for Public Health and Social Welfare, including aid to the aged, which in this budget requires \$85,820,400. It also covers the subventions for local government for streets and highways and the state provision for highways totaling in this budget \$111,912,631. Other fixed charges established in the Constitution or continuing legislation make up the remainder. It is clear that we cannot produce real economy or adjustments in our expenditure program to meet a condition of declining revenue on an equitable basis unless we can deal with these fixed charges as well as with the controllable items of expenditure, many of which are for purposes just as necessary and essential as any of those established as fixed charges.

Budget Grown Apace

Reference to the total of this budget shows that the Budget of the State of California has certainly grown over the years. We are including in this statement a tabulation showing the government budget as introduced, the Budget Bill as introduced, the Budget Bill as passed by the Legislature, the amount of the special appropriations and the final expenditure program for the several bienniums 1929-31 to 1945-47 and for the Fiscal Year 1947-48. It may be interesting to note that the Governor's Budget for the biennium 1931-33 was \$265,000,000 and the Budget Bill for that period \$106,000,000. This was reduced by the Legislature and finally passed at \$94,000,000, but added special appropriations brought the final expenditure program to \$248,000,000. In the depression years of 1933-35 the Governor's Budget as introduced was smaller than for the prior biennium, dropping from \$265,000,000 to \$258,000,000 and the Budget Bill dropped from \$106,000,000 to \$76,000,000. The Legislature further reduced this Budget Bill to \$69,000,000 and then proceeded to pass special appropriation bills so that the final expenditure program amounted to \$318,000,000, an increase over the prior year.

* Actual expenditures.

† The Governor reduced the Budget Bill by \$228,000 after passage by Legislature.

This was the end of the moderate budget period and the State has continuously increased its expenditure program until *finally the 1945-47 biennial budget as introduced was \$863,000,000 and the final expenditure program as approved amounted to \$1,066,000,000 for two years.* For the current fiscal year alone the budget came in at \$641,000,000 and the final expenditure program as approved by the Legislature was \$771,000,000 for the one year. Ten years before, it was \$527,000,000 for two years.

We have stated that the present budget as introduced reached approximately \$920,000,000. May we point out again that all that is before the Legislature and before this house is the appropriation bill Senate Bill No. 1 which approximates \$265,000,000 or 28.91 percent of the budget.

Government Costs Rise With Industrialization

Certain costs of State Government likewise increase at a higher rate than population with a change in the type of population from predominantly agricultural to industrial. This change occurred very rapidly in California beginning about 1941. With industrialization came greater incidence of insanity, increased health problems, increased crime problems, increased problems of sanitation, increasing problems of transportation, increasing problems in securing teachers and school housing to meet the accelerating school enrollment. We can expect higher tax bills for all these things, to take care of greater numbers of insane persons, to take care of industrial accidents and the dependency caused by them, to take care of increased crime and more crowded court calendars and increased cost for all other social problems arising from industrialization. This is a price the State will pay. These increased costs are reflected in the present budget and they will appear in all state budgets from now on.

Costs Due to New Activities

In addition to these costs flowing from population and industrialization there are also added costs due to new activities that the State has

entered into in the past few years. Some of these grew out of wartime activities and have been continued in some form or other and some are entirely new, being approved by the last session of the Legislature. These items which continue from the wartime activity include the following:

Additional agricultural inspection to keep out pests, particularly in relation to airplane travel.

A research division in the Governor's Office which is residual from the old Reemployment and Reconstruction Commission.

The Local Allocations Division of the Department of Finance for the purpose of making allocation to relieve postwar unemployment.

Additional inspections in the Department of Industrial Relations started as a wartime activity.

Continued expansion in the Division of Mines, Department of Natural Resources, started as an activity for the development of strategic metals.

Continued activity in the Personnel Board for the replacement of veterans, now expanding into a permanent service.

A new and expanded development of veterans' affairs.

The Disaster Council in the Governor's Office growing out of the War Emergency Council.

There are probably other residual activities in many other state departments that grew up during the war and are being continued but are very difficult now to discover.

In addition to these there are the following additional activities that appeared in the prior budget that are continued:

Additional aid in the way of tuberculosis subsidies.

State aid for local hospitals.

State aid for the development of local health services.

Further state aid for construction of streets and highways by local government.

State aid to assist in paying the salary of agricultural commissioners.

Increased state aid for payment of salaries of superior court judges.

The last session of the Legislature added some entirely new services and agencies consisting of:

Aeronautics Commission

Centennial Commission

Added out-patient clinics for the Department of Mental Hygiene

Separate Highway Patrol

Redevelopment Agency

Recreation Commission

Office of Research in the Governor's Office

California Academies

Reorganization of school districts

Special program for agricultural research at University of California

State College at Los Angeles

State College at Sacramento

Wild Life Conservation Act of 1947
Brucellosis Control
Pullorum Control
Automobile Drivers' Financial Responsibility

Most of these new organizations and functions are just getting under way and their requested appropriations in this budget are relatively small as compared with what there will be when they are fully established. These new agencies add to the over-all cost of State Government, and they will grow. They call for new employees, new automobiles, new desks and office furniture, new offices and continued expense accounts.

State Employees Increase in Number

The 1927-28 Budget and appropriation bills added over 5,000 new state employees at a cost of approximately \$15,000,000 per year. This appropriation bill before you will add approximately 3,800 new employees at a cost of about \$12,000,000 per year. The increase in the number of state employees over those already employed far exceeds the percentage increase in population.

To the above reasons for the increase in the budget may be added one other controlling factor. Salaries and wages in the budget have been allowed on the same base as presently established, but with provision for automatic increases and a considerable amount of reclassifications. These salaries are at the maximum the State has paid and, of course, with the corresponding requirement for contribution by the State to the Retirement Fund. A special amount of \$2,000,000, as appeared in the last budget has been requested for further salary increases, but the spiral of wages continues upward as is threatened in industry. The State Employees' Association is asking for a special salary increase item in the added sum of \$4,526,000.

Commodity Prices May Go Down

Likewise, the price of commodities has been allowed in the budget on the September, 1947, base providing for a percentage increase of 1 percent for food and certain other percentage allowances for other commodities. It is our opinion that commodity prices are more likely to go down as measured by the full year 1948-49 than to go up. Should they go up, additional money will be required, but since we believe they may decline, all savings realized through such decreases should be sequestered and not spent and should be returned to the fund from which it was appropriated.

Net Reduction Recommended by Finance Committee Is Small

The net reduction in Senate Bill No. 1, the Budget Bill, recommended by your Finance Committee is relatively small, totaling only \$942,353 from the original bill, as introduced, of \$265,024,801.

You have before you a schedule prepared by the Department of Finance, showing the amendments to the Budget Bill, including both reductions and additions. *The reductions recommended by your Finance Committee totaled \$2,472,869. These are shown item by item in the schedule referred to. The additions approved by your committee totaled \$1,028,796. The difference between these two figures makes the net cut of \$1,444,073. The additions to the Budget Bill were made as amendments*

in preference to having special bills introduced on each item. The larger of these additions are as follows:

- \$305,000 additional tuberculosis subsidy.
- \$250,000 additional for the Forestry Division for fire suppression.
- \$146,000 additional for brucellosis control.
- \$85,000 additional for the treatment of children with cerebral palsy.
- \$30,000 for underground water studies.
- \$30,000 for the cooperative study of fish.
- \$30,000 to the Department of Public Health for the study of "Q" fever.
- \$25,000 to the Wild Life Conservation Board.
- \$23,000 for construction of an arch to provide fire exit for San Jose State College.
- \$20,000 to the Department of Agriculture for the study of solid fat in milk.
- \$12,250 for Conservation Education, Department of Natural Resources.
- \$10,000 for the audit of veterans' assistance.
- \$8,766 to cover additional Board of Control claims.

A number of additional requests of substantial amounts for further additions to the Budget Bill were disallowed by the committee. Amendments may be presented on this floor for such purposes but the committee by majority vote rejected all other amendments presented except those in the bill before you.

Revenue Estimates

While the Finance Committee has not made a full study of estimates of revenues in the budget, they found that the *Department of Finance and the Legislative Auditor concur in that the revenue estimates*, while conservative, are not as conservative as for the current fiscal year. *In the last year there has been a falling off in the receipts from liquor taxes, horse racing and some miscellaneous receipts. However, the sales tax, the corporation and personal income and insurance taxes have not only held up but have continued to show additional increases.* Undoubtedly the present drought will adversely affect income and if it continues with the same intensity, revenues may not accrue in the full sum as estimated, but due to the lag in the effect of such conditions on business, it is not believed that the actual accrual of revenues will vary greatly from the estimates presented in the budget. This depends, however, on the continuance of good business conditions.

Surplus or Deficit

The Governor's Budget shows that the accumulated *General Fund surplus at the end of the present fiscal year, June 30, 1948, will be \$135,525,771.* The revenues to the General Fund estimated in the budget for the 1948-49 Fiscal Year, are placed at \$488,270,632. *The total General Fund expenditure recommended in the budget amounts to \$532,959,248. The transfer to the postwar employment reserve provided by Section 4 in your Budget Bill totals \$37,800,000. This leaves a balance unappropriated, according to the budget estimates, if Senate Bill No. 1 is passed as now before you, of approximately \$21,500,000; to be exact \$21,481,073. That*

means that if the Legislature appropriates more than this sum, \$21,500,000, the amount set up now as free surplus with the reduced Senate Bill No. 1, it will place the State in the red and we will again return to deficit financing.

There are now before this Senate a number of bills calling for appropriations that exceed this amount. Two of such bills have already cleared the Screening Committee, one for child care centers for six and one-half million dollars and one for impoverished school districts for \$50,000,000. The present financial condition of the State is made quite clear by these facts. If these bills are passed with Senate Bill No. 1 the State General Fund will be in the red over \$36,000,000.

General Fund Expenditures Exceed Current Income

It is also quite clear that the annual expenditures from the General Fund are now *exceeding the General Fund revenues of the State and for this current year the estimates in the budget show this excess expenditure to be \$44,688,616*. Although revenue is accruing in the greatest amount the State has ever experienced, this excess expenditure over receipts is being met by drawing from carry-over surpluses and previously established reserve to meet the General Fund program. A large part of the State's building program is not being carried into effect equal to its needs and the building reserves from the best information we can secure will only meet the State's needs to 1951. However, as these buildings are completed and placed in operation, the additional cost for such maintenance and operation of these facilities will produce further demands on the State Treasury.

Allow me to point out that should there even be a minor recession during 1948-49 the revenues as estimated will probably not accrue and reserves will have to be drawn on even further to meet the State's expenditure program. Neither does this budget contemplate any expenditures on the part of the State for relief which might be required under such conditions nor is there any material free surplus in the Treasury outside of reserves to finance relief.

Tax Reduction

It appears that revenues at the present tax rates are sufficient to carry into effect the appropriations set forth in Senate Bill No. 1 and to meet the fixed charges of the budget and allow a modest sum for other appropriations by the Legislature but that any appropriation beyond the \$21,500,000 is likely to exhaust the entire General Fund free surplus.

With this explanation, which I request be printed in the Journal, I submit the Finance Committee's recommendation on Senate Bill No. 1, the first Budget Bill of the First Annual Session of the California Legislature.

W. P. RICH, Chairman,
Finance Committee

*Hon. Goodwin J. Knight, President of the Senate
California Legislature, State Capitol
Sacramento, California*

MR. PRESIDENT AND MEMBERS OF THE SENATE:

The Joint Committee on Water Problems created pursuant to Senate Concurrent Resolution No. 60, Chapter 142, Statutes of 1947, herewith

submits its preliminary report covering meetings held from August 11, 1947, to January 7, 1948.

This preliminary report consists of the following:

I. A record of the proceedings of the committee in its study of statutes in the Water Code, and other statutes, and/or constitutional provisions, which might conflict and should be changed or amended by legislation.

(a) Reports and opinions from the Legislative Counsel, and opinions from the Attorney General, and heads of departments bearing on the subject, all to be made a basis of our study from now until January, 1949, on this subject.

II. A resume of proceedings bearing upon introduction of a bill providing for reallocation of funds for flood control projects by the State Water Resources Board in accordance with the Flood Control Fund Act of 1946.

III. Oral and written testimony bearing upon, and interpreting the legal effect of proposed contracts between the Federal Bureau of Reclamation and the irrigation and other districts in California.

IV. Preliminary testimony on the advisability and possibility of the State negotiating for and the taking over of the Central Valley Project.

There has been considerable demand throughout the State for copies of the studies and reports herein contained. The committee, itself, feels it has only laid a foundation for its future work.

There are many requests for the committee to make other investigations throughout the State, both on questions of policy and upon the merits and feasibility of a variety of projects.

The committee is planning to make its conclusions, findings and recommendations in regard to legislation at the beginning of the 1949 Session of the Legislature.

Respectfully submitted.

WHEREAS, The present session of the Legislature is restricted to consideration of budgetary and emergency matters of legislation; and

WHEREAS, The Congress of the United States, in order to allow time for state legislatures to meet in regular session for consideration of the purchase of these camps, has provided for such consideration a time limit ending June 30, 1949; and

WHEREAS, The Secretary of Agriculture has made a definite offer to sell the 23 Migratory Labor Camps in California to the State of California; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Secretary of Agriculture be advised that the Legislature of California will consider this question of purchase by the State early in its next regular session, beginning January 3, 1949; and be it further

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA
GOVERNOR'S OFFICE, SACRAMENTO, March 20, 1948

*To the Honorable Members of the Senate
State of California
Sacramento, California*

GENTLEMEN: I am transmitting to you copy of a telegram from the Secretary of Agriculture which reached me today.

In this telegram the Secretary makes a definite offer to sell the 21 operating farm labor camps in this State at a price equal to 10 percent of the appraised value of the land, improvements, nonexpendable equipment, operating supplies and material. This amounts to \$613,464. The offer is good for 30 days.

In view of my statement to you at the opening of the session that the Secretary of Agriculture had not made a definite offer stating price and conditions upon which these camps would be sold, I am transmitting this telegram to you for your information.

Respectfully submitted.

EARL WARREN, Governor

(COPY)

WESTERN UNION, WASHINGTON, D. C.

*Hon. Earl Warren
Governor of California
Sacramento, Calif.*

This is with further reference to the questions raised in your letter of November 26, 1947, which I authorized Mr. Tack Spoor and Mr. W. A. Anglim to discuss with you. Mr. Spoor indicated to you that the department was willing to sell the camps to the State of California for continued operation as farm labor supply centers, at a price equal to 33 1/3 percent of the government's appraisal of the land and improvements plus the appraised value of personal property. Since that conversation with you, we have made a rather thorough study of the whole problem of disposing of the labor camps in the United States. In order to bring this disposal program to an early conclusion, we wish at this time to make you an exclusive offer, good for 30 days from date of this telegram, to sell the 21 operating camps to the State of California at a price equal to 10 percent of appraised value of land and improvements, nonexpendable equipment, operating supplies and material. This amounts to \$613,464. If the State of California does not decide to purchase the camps within this period, we propose immediately to make sales under the provisions of Public Law 298, at negotiated prices, to eligible state-wide or local organizations. If the State of California is interested in securing and operating the camps, we are confident that we can reach agreement on the reversion of title and type of deed provisions which you indicate may not be acceptable in their present form. If you have any additional questions, Mr. Wm. A. Anglim of our Berkeley office, will be glad to answer them. Kindly advise us of your decision as soon as possible.

CLINTON P. ANDERSON, Secretary of Agriculture

The letter of the Governor, and the copy of the telegram from Clinton P. Anderson, Secretary of Agriculture, were ordered printed in the Journal.

REQUEST FOR UNANIMOUS CONSENT

LEGISLATIVE BUDGET COMMITTEE, CALIFORNIA LEGISLATURE

STATE CAPITOL, SACRAMENTO, CALIFORNIA, March 19, 1948

Hon. George J. Hatfield

Senator, Twenty-fourth District

State Capitol, Sacramento, California

DEAR SENATOR HATFIELD: In compliance with your request we have prepared and attached herewith a list of new positions proposed to be established by provisions in the 1948-49 Budget Bill as approved by the Senate Finance Committee and the Senate in Senate Bill No. 1.

A considerable number of new positions and some reductions have been made by amendments approved by the Ways and Means Committee of the Assembly.

This list is similar to the report we gave to you May 2, 1947, which was published in the Senate Journal of May 5, 1947, beginning on page 1834. This list shows an addition at that time of 4,430 full-time positions and 954 part-time positions at a total cost in salaries for the year of \$12,899,444. The new positions, as shown by the following report, total 2,786 at a salary cost of \$7,764,899.

We are also attaching an analysis of positions, salaries and wages for the 1947-48 Fiscal Year. This shows the authorized new positions as proposed in the Governor's Budget for 1947-48, the changes made by the Legislature in the Budget Bill and the effect of other legislative bills on positions and salaries for this fiscal year. This does not include the blanket salary adjustments.

We call your attention to the fact that the total number of positions shown on the last page next to the last column is 50,874 at a cost of \$127,830,000 a year. This figure includes the employees of the University of California and the Department of Public Works, and it also includes some 8,000 employees paid from federal funds which are not included in the Personnel Board figures of some 42,000.

In the report for 1948-49 we have shown the number of positions deleted by the Senate Finance Committee changes and the amount of money involved.

Sincerely yours,

ROLLAND A VANDEGRIFT, Legislative Auditor

STATE WATER RESOURCES BOARD
SACRAMENTO 5, CALIFORNIA, March 18, 1948

*Mr. Joseph A. Beck, Secretary of the Senate
State Capitol, Sacramento, California*

Attention: Members of the Senate

DEAR MR. BECK: At the direction of Chairman Royal Miller, there is transmitted herewith for your consideration a recommendation unanimously adopted by the State Water Resources Board at its meeting in Sacramento on March 5, 1948.

The board directed that copies of the recommendation also be mailed to all boards of supervisors and planning commissions in the State of California.

Very truly yours,

SAM R. LEEDOM, Administrative Assistant

**Recommendation Unanimously Adopted by the State Water Resources
Board at Its Meeting in Sacramento on March 5, 1948**

"It is recommended to the Governor and to the Legislature of the State of California that serious attention be given to the problem of the subdivision and sale of lands on which present and foreseeable future water supplies are known to be deficient.

"With the rapid increase in population in California, many areas have been opened to settlement for the unwary without regard to the matter of water supply for these areas.

"In our state and county planning we are attempting to look forward to ultimate highway facilities. Much attention is being given to programming for the future with regard to sanitation, water pollution, and health matters. Attention also is being devoted to building restrictions and kindred problems. However, in the field of planning for adequate water supplies for these newly developed areas, little or nothing is being done.

"Zoning ordinances have been attempted in certain areas and proven ineffectual. It is recommended that the Legislature seriously consider enactment of legislation giving the necessary power to the proper county agencies to enable them to require that adequate water supplies be assured for lands being opened to settlement."

President Pro Tempore of the Senate Presiding

LETTER OF TRANSMITTAL

March 23, 1948

Senator George Hatfield
State Capitol Building
Sacramento, California

DEAR SENATOR HATFIELD: We are pleased to submit to you herewith a report of the Budgetary Resources and Obligations of the Division of Highways, Department of Public Works, as of December 31, 1947. This

audit and report has been prepared by the firm of Haskins & Sells, Certified Public Accountants, at the instance of the California State Chamber of Commerce, the Automobile Club of Southern California, and the California State Automobile Association.

Our purpose in sponsoring this survey and report was to obtain, through the medium of a firm of independent certified public accountants, an unbiased statement of the Budgetary Resources and Obligations of the Division of Highways. This report shows that as of December 31, 1947, the Division of Highways had available in cash and accounts receivable, the sum of \$15,191,465.95 for state highway purposes. Additional cash was available, but obligated to distribution to cities and counties for county road and city street purposes.

The report shows anticipated revenue during the six-month period—January 1 to June 30, 1948—available for state highway purposes in the amount of \$81,357,948.03. These receipts will accrue during said period as follows: \$32,107,566 in federal aid, and \$49,250,381 from the state gasoline tax, truck weight fees, and other motor vehicle taxes placed in the Highway Users Tax Fund. As of December 30, 1947, the report also shows the budgetary obligations of the Division of Highways, including contracts outstanding and work orders, to be \$58,513,957.97.

It is anticipated that additional revenues to be received will become obligated under contracts or work orders prior to June 30, 1948. We believe it is desirable that this information be made public. May we therefore suggest that the report be reproduced in the Senate Journal, in order that adequate copies may be made available.

Respectfully yours,

CALIFORNIA STATE CHAMBER OF COMMERCE

REQUEST FOR UNANIMOUS CONSENT

Senator Hulse asked for, and was granted, unanimous consent to have the opinion of the Legislative Counsel in regard to Senate Constitutional Amendment No. 14, of the 1947 Session, printed in the Journal.

OPINION OF LEGISLATIVE COUNSEL

STATE OF CALIFORNIA, OFFICE OF LEGISLATIVE COUNSEL

SACRAMENTO 2, CALIFORNIA, March 24, 1948

Hon. Ben Hulse

Senate Chamber

Senate Constitutional Amendment No. 14—No. 426

DEAR SENATOR HULSE:

Question

You have asked the following question with respect to Senate Constitutional Amendment No. 14 proposed by the Fifty-Seventh Session of the Legislature which, if adopted, would add Section 19 to Article XIII of the Constitution of California providing that the State shall pay to local governments an amount equal to their loss or revenue resulting from exemptions of ad valorem taxes of real property under Sections 1c and 1½ of Article XIII of the Constitution of California:

Is the scope of Sections 1c and 1½ of Article XIII sufficiently broad to include tax exemptions under Sections 1½ and 1½a of Article XIII, and if so, would the State, under the proposed Section 19, pay to local governments an amount equal to their loss of revenues from tax exemptions granted under Sections 1½ and 1½a?

Section 1c provides generally that the Legislature may exempt from taxation property owned by community chests, funds, foundations or corporations which is used exclusively for religious, hospital or charitable purposes and operated on a non-profit basis.

Section 1 $\frac{1}{4}$ grants exemptions to resident veterans, their wives, and surviving relatives and exempts all real property owned by the Ladies of the Grand Army of the Republic and all property owned by the California Soldiers Widows Home Association.

Section 1 $\frac{1}{2}$ exempts real property used solely and exclusively for religious worship.

Section 1 $\frac{1}{2}$ a exempts real property of orphan asylums.

Opinion

It is our opinion that the provisions of Sections 1e and 1 $\frac{1}{4}$ do not apply to property which is specifically exempt under the provisions of Sections 1 $\frac{1}{2}$ and 1 $\frac{1}{2}$ a, and that if the proposed amendment is adopted, the amount which the State must pay the local governments for loss of revenues would not include property exempt under the provisions of Section 1 $\frac{1}{2}$ (church property) and Section 1 $\frac{1}{2}$ a (orphan asylums).

Analysis

In construing the Constitution, all the provisions on the subject must be considered together (*Fresno Canal and Irrigation Co. vs. Park*, 129 Cal. 437). Hence, to determine the scope and effect of the various sections of Article XIII, relating to tax exemptions, their provisions should be construed together and in harmony.

Section 1 $\frac{1}{4}$, being specifically limited to tax exemptions for veterans and to property owned by the Ladies of the Grand Army of the Republic and by the California Soldiers Widows Home Association, clearly could not be interpreted to include exemptions granted under Sections 1 $\frac{1}{2}$ and 1 $\frac{1}{2}$ a.

Section 1e, however, is general in scope and grants the Legislature broad powers with respect to tax exemption on property of nonprofit community chests, funds, foundations or corporations and, in absence of other considerations, might be construed as being inclusive of the specific exemptions granted by Sections 1 $\frac{1}{2}$ and 1 $\frac{1}{2}$ a.

It has been long established that in construing the Constitution, the more specific provision controls the general, without regard to their comparative dates (*Henry S. Martin vs. Board of Election Commissioners of the City and County of San Francisco* (1899), 126 Cal. 404). Thus, although the general provision (Section 1e) was adopted at a later date than the other sections in question, it will be controlled by the other more specific provisions.

It follows, therefore, that even though property exempt under the provisions of Section 1 $\frac{1}{2}$ and 1 $\frac{1}{2}$ a could also be exempted under the provisions of Section 1e, the property defined in Section 1e would be limited to only such property as is not specifically exempted under Sections 1 $\frac{1}{2}$ and 1 $\frac{1}{2}$ a.

By the same token, we believe that under the proposed new Section 19 to Article XIII, the State would be required to pay to local governments an amount equal to their loss of revenue through exemptions from taxation of property defined in Sections 1e and 1 $\frac{1}{4}$ excluding property specifically exempt under the provisions of Sections 1 $\frac{1}{2}$ and 1 $\frac{1}{2}$ a.

In this connection it should be noted that Section 1e is not self-executing and exemptions under that section arise only as a result of an

act of the Legislature. Consequently, if the scope of Section 1c was questioned, the Legislature could expressly limit any exemptions granted under Section 1c so as to exclude exemptions granted under Sections 1 $\frac{1}{2}$ and 1 $\frac{1}{2}$ a.

Very truly yours,

FRED B. WOOD, Legislative Counsel
By GEORGE H. MURPHY, Deputy

Explanation of Assembly Bill No. 47

EXPLANATION OF ASSEMBLY BILL NO. 47, AS AMENDED MARCH 25, 1948, PROPOSING AMENDMENTS TO THE PERSONAL INCOME TAX LAW, PART 10 OF DIVISION 2 OF THE REVENUE AND TAXATION CODE

By ASSEMBLYMAN GEORGE R. BUTTERS
and SENATOR BEN HULSE

Sections 17390 to 17394 of said bill provide the rules for the computation of the net operating loss deduction allowed by Section 17320.6. The net operating loss deduction is the net operating loss carry-over reduced by certain adjustments to prevent the deduction of losses absorbed by income not taxed. In general, the net operating loss carry-over is the sum of the net operating losses, if any, for the two preceding taxable years. If there is net income (computed as provided in Sections 17390 to 17394) in the first preceding taxable year, the net operating loss for the second preceding taxable year is reduced to the extent such loss has been absorbed by such net income.

The net operating loss deduction is first available in a taxable year beginning after December 31, 1948. Since the first taxable year from which a net operating loss may be carried over is one beginning after December 31, 1947, ordinarily the carry-over to a taxable year beginning after December 31, 1948, and before January 1, 1950, will be only a one-year carry-over. The only exception is in the case of the intervention of more than one complete taxable period between December 31, 1947, and the beginning of such taxable year. For the purpose of ascertaining the first or second preceding taxable year, a fractional part of a year which is a taxable year under Section 17010 of the Personal Income Tax Law is a preceding taxable year.

REPORTS OF STANDING COMMITTEES

Committee on Social Welfare

SENATE CHAMBER, SACRAMENTO, March 26, 1948

MR. PRESIDENT: The Committee on Social Welfare, to which was referred Senate Resolution No. 44, has had the same under consideration and reports the same back as follows:

(1) The resolution is misleading and vicious in many respects, attacking and maligning a native son of California, representing him as a lout, a pilferer, and a menace to society, whereas it is well known that he is a modest, retiring fellow, quiet and discreet in his dress, given wholly to minding his own business unless and until harassed by North Carolinians and such.

(2) The resolution is inaccurate in that it relates that the bear population of California is decreasing, whereas everyone knows that the University of California is turning out Golden Bears by the thousand every June.

(3) As a substitute for the noble native son now on our glorious State Flag, the Senator from Calaveras suggests the jumping frog, a gawky, loquacious fellow given to green velvet jackets with gaudy dots of varying hue, a veritable changeling of the first water, starting out as a fish and ending up a croaker.

(4) Furthermore, for a hundred years California has been synonymous with the gleaming metal emblematic of purity and beauty, pure gold. Shall we now surrender this heritage and embrace a creature the very origin of whose fame is synonymous with the basest of all metals, and change our victory cry from "Owsky-wow-wow" to "Get the Lead Out?"

The committee concludes that the action recommended by Senate Resolution No. 44 is against the peace, health, and safety of the people of the State of California and the resolution should be suppressed under the police power of the State, and as a means of doing so, recommends that Senate Resolution No. 44 be re-referred to the Committee on Drainage, Swamps and Overflowed Lands.

Committee vote: Ayes 8; noes 0.

WEYBRET, Vice Chairman

REQUEST FOR UNANIMOUS CONSENT

Senator DeLap asked for, and was granted, unanimous consent to have the following Report of the Budget Session Joint Standing Committee printed in the Journal in 10-point type:

Report of Budget Session Joint Standing Committee

This committee was created pursuant to the report of the Joint Fact-Finding Committee on Legislative Procedure filed March 1, 1948, and appearing in the Journal of each house on that date.

There were 44 Senate bills and 79 Assembly bills heard by the committee. Of this number 104 contained urgency clauses, and four contained no urgency clause. The remaining 15 were revenue measures. All the revenue measures necessary to support the budget automatically went out of committee, in accordance with the constitutional provision. Thirty-five of the 104 containing urgency clauses were also reported out for re-reference to the appropriate standing committees. A full hearing was accorded every bill containing an urgency clause and each of the bills containing an urgency clause was scrutinized as to the facts, and the need for the measure was carefully weighed.

Throughout its hearings the members of the committee had in mind the instructions contained in the rule creating the committee, to the effect that it should not recommend further consideration by the Legislature of any urgency measure unless it should find that facts exist requiring the enactment of the bill to take effect immediately, as actually necessary for the immediate preservation of the public peace, health or safety pursuant to the constitutional provision and that the urgent need is such that enactment of the bill could not await the convening of the next regular session.

At the outset of its deliberations and for the reasons hereinafter appearing, the committee determined that its duty was to determine as each bill came before it whether or not it was an urgency as a matter of *fact*.

As pointed out in the opinion of the Legislative Counsel, appearing in each Journal under date of March 1, 1948, the question whether or not a particular legislative bill is an urgency measure has a significance at a budget session which it does not have at any other session. At a budget session that question goes to the very power of the Legislature to enact the measure. At other sessions of the Legislature it is merely a question whether the act takes effect immediately and is not subject to the referendum, or ninety (90) days after final adjournment and is subject to the referendum. For these reasons the opinion concludes that while the courts have entertained an almost conclusive presumption in favor of a finding of fact by the Legislature, yet it does not necessarily follow that the same degree of credit will be given to that finding when the very power to legislate depends upon its accuracy. The import of the opinion, therefore, is that the courts as a legal proposition may scrutinize the urgency question with more care when considering a bill enacted at a budget session than if it were enacted at any other session. For the same reasons the committee feels that the Legislature should likewise scrutinize the facts alleged to constitute the urgency more carefully at a budget session than would be necessary at a regular session. An additional reason for the conclusion of the committee in this regard is that a majority of its members believe the voters intended that these sessions should be primarily for the purpose of considering the budget, and that only those other measures which constitute a real urgency as a matter of fact should be considered at such sessions.

In other words, the majority of the committee agrees with the opinion of the Legislative Counsel that the responsibility for making a correct decision as to urgency is primarily for the Legislature and that the question to be determined by it in each instance is one of fact rather

than of law. Whether or not such determination of fact by the Legislature is a correct one as a matter of law is a question for the courts to determine in a proper case after final enactment. Under this theory the Legislature is the fact-finding body and the purely legal question as to whether or not a given matter is an urgency in each case must be left for the courts to determine upon the facts so found by the Legislature.

We wish to call attention to the fact that under the Constitution it is only revenue measures necessary to support the budget that are authorized at this session. We wish to emphasize this because of the confusion which prevailed during this session. It was finally concluded that the test to be applied to such measures was, would the proposed measure either reduce or increase an item in the budget.

The members of the committee believe that its creation as a joint committee has served a real purpose and that a similarly constituted committee should continue to function in the future at each of the budget sessions.

Respectfully submitted.

Resolved by the Senate of the State of California, As follows:

REQUEST FOR UNANIMOUS CONSENT

Senator Tenney asked for, and was granted, unanimous consent to have the following opinion of the Legislative Counsel, relating to Assembly Bill No. 61, printed in the Journal in 10-point type.

OPINION OF THE LEGISLATIVE COUNSEL

STATE OF CALIFORNIA, OFFICE OF LEGISLATIVE COUNSEL

SACRAMENTO, March 26, 1948

Hon. Jack B. Tenney

Senate Chamber

Assembly Bill No. 61—Relating to Corporate Securities, No. 765

DEAR SENATOR TENNEY: You have asked us two questions with respect to Assembly Bill No. 61. That bill defines "installment purchase contract" for purposes of Section 8 of the Corporate Securities Act (Deering Act 3814), insofar as that section requires such contracts to be upon a form which has been submitted to and approved by the Corporation Commissioner.

In addition to the definition, the bill provides:

"The term 'installment purchase contract' has had and does have the meaning provided for in this section."

Your first question is whether the provision quoted will affect pending litigation. We do not believe it will.

A provision substantially similar in intended effect in Chapter 422 of the Statutes of 1929, which amended certain tax laws, declared:

"The Legislature hereby declares that the amendments * * * contained in this act are not a change in, but a statement and declaratory of the law as the Legislature intended it to be by the terms of those sections prior to this amendment."

With respect to such provision our Supreme Court stated in *Clayton vs. Schultz*, 4 Cal. 2d 426, at page 430:

"While a declaratory statute cannot bind the courts with respect to application of the original statute to transactions which occurred or rights of actions which accrued prior to passage of the

declaratory act, yet, in the absence of intervening rights, an act declaratory of a former one has the same effect as if embodied in the original act at the time of its passage."

Thus, if any rights have accrued with respect to installment purchase contracts prior to the definition thereof by the enactment of Assembly Bill No. 61, which rights are sufficient to base a cause of action thereon, we do not believe that the definition could be effective with respect thereto. Even more clearly would this be so with respect to a cause of action pending at the time the statute was enacted inasmuch as the rights therein should certainly have become fixed as of the time the action was commenced.

Despite the foregoing, there is the possibility that the legislative definition might have some effect if the court had no other basis than such definition upon which to place its decision. In this connection we note that in a case pending in the Superior Court in and for the County of Los Angeles, *Langhoff vs. Bear Stearns & Co.*, No. 536, 516, involving installment purchase contracts of the type proposed to be redefined by Assembly Bill No. 61, the court stated in its opinion upon the demurrer to the first amended cross-complaint that the statute was sufficiently uncertain of import to justify extraneous aid in interpreting it, but the court refused to consider executive interpretation as such an aid inasmuch as the same was not affirmative, objective and contemporaneous. The same considerations might well be applicable to the legislative definition.

Your second question pertains to whether the urgency clause of the bill is valid. Referring to our opinion covering the validity of urgency measures enacted at budget sessions appearing at pages 13 to 16, inclusive, of the Senate Journal for March 1, 1948, we believe that the bill is one as to which an urgency clause is proper if there are sufficient facts to sustain the same.

Whether the facts are sufficient, is one which must be decided, in the first instance by the Legislature. If the Legislature does determine that the facts in Assembly Bill No. 61 are sufficient, we believe that the courts would not disturb that finding.

Very truly yours,

FRED B. WOOD, Legislative Counsel
By J. D. STRAUSS, Deputy

RESOLUTIONS

The following resolutions were offered:

By Senator Rich:

Senate Resolution No. 50

Relative to the legislative career of the Honorable T. H. DeLap

WHEREAS, Rumor has it that due to pressure of other business, the Senate of the State of California is hereafter to be deprived of the sage counsel and the pungent wit of the Honorable T. H. DeLap, sometimes referred to as "the Napoleon of Contra Costa County"; and

WHEREAS, Senator DeLap has represented the Seventeenth Senatorial District in the Senate of the State of California from 1935 to 1948, inclusive, during which time he has rendered service of an outstanding nature to the district he represented and to the whole people of California; and

WHEREAS, During his tenure as a Member of the Senate, Senator DeLap has been noted for his keen analytical mind and his unusual capacity to interpret the meaning of involved and complicated questions; and

WHEREAS, His forthright honesty and candor have elicited for him deep admiration and most profound esteem of his fellow members; now, therefore, be it

Resolved by the Senate of the State of California, That the Members of the Senate regret that Senator DeLap feels it necessary to sever his connection with this body and wish him all success and happiness in his profession and in all activities in which he may see fit to engage; and be it further

Resolved, That the Secretary of the Senate is directed to present an engrossed copy of this resolution to the Honorable T. H. DeLap.

Resolution read, and on motion of Senator Rich, adopted.

By Senator Cunningham:

Senate Resolution No. 51

Relative to the public service of the Honorable Frank L. Gordon

WHEREAS, The appeal of the strenuous and exciting life to be lived outside of the cloistered security of the Capitol Building has prompted one of our youngest Senators, the Honorable Frank L. Gordon, to sever his connections in the Senate in order that he may pursue more lively and strenuous activities elsewhere; and

WHEREAS, While this young Senator is young in spirit, he is old in service, having represented his district in the Assembly before becoming a Member of the Senate in which he has served diligently and to the complete satisfaction of his constituents for 16 years; and

WHEREAS, Senator Gordon has been the Senate's perennial chairman of its Committee on Fish and Game, and the walking encyclopedia on all wild life, from condors to catfish; having sat through many a debate his eyes attentively glued on the speaker while in his mind he whipped a royal coachman over a sunlit mountain stream or lugged home a limit of Canada honkers, and when he has secured the limit of such imaginary fish or game, he has been the one to move the previous question, thus concluding the debate and returning from the festive fields of sport to the less sportive routine of legislation; and

WHEREAS, The Honorable Frank L. Gordon, by his sterling character, his faithful discharge of his responsibilities, and his generous nature, has earned the affection and esteem of his fellow Senators to an unusual extent; now, therefore, be it

Resolved by the Senate of the State of California, That Senator Gordon be congratulated upon the fine record he has made as a legislator and a citizen, and that he be hereby assured of the best wishes of all members for his continuous good health and prosperity; and be it further

Resolved, That the Secretary of the Senate be, and he is, directed to present to the Honorable Frank L. Gordon a suitably prepared copy of the resolution.

Resolution read, and on motion of Senator Cunningham, adopted.

By Senator Hatfield:

Senate Resolution No. 52

Relative to the services of the Honorable Oliver J. Carter

WHEREAS, Members of the Senate have received with regret the information that their esteemed colleague, the Honorable Oliver J. Carter, is not planning to return to the Senate after the conclusion of this session; and

WHEREAS, Senator Carter has served as representative of the Fifth Senatorial District, representing Shasta and Trinity Counties, through the Fifty-fourth, Fifty-fifth, Fifty-sixth, Fifty-seventh Sessions and the 1948 Regular Session; and

WHEREAS, Senator Carter has won for himself a unique position in the Senate of the State of California, being noted for his keen grasp of the law, his clear and forceful method of presentation, and his forceful advocacy of such causes as have appeared to him to be worthy, displaying throughout all of his militant championship of these causes an essential sense of fairness which has won for him the high esteem and respect of all of his colleagues in the Legislature; and

WHEREAS, Senator Carter has been fortunate in having with him at Sacramento, young, charming and vivacious members of his family who have frequently graced and enlivened the somber portals of the Senate Chamber; and

WHEREAS, Senator Carter is possessed of a friendly and courteous nature and has earned the good will of his fellow Senators; now, therefore, be it

Resolved by the Senate of the State of California, That the members thereof sincerely wish for Senator Carter continued success in his profession, and felicity in his private life; and be it further

Senate Resolution No. 53

Relative to the legislative record of the Honorable Irwin T. Quinn

WHEREAS, It is reliably reported that the Honorable Irwin T. Quinn of the Third Senatorial District has decided not to again submit his name to the electorate of his district for the Office of State Senator, but to discontinue his service as a Member of the Senate; and

WHEREAS, Senator Quinn has represented his district, embracing the great Redwood Empire of the State of California, since the year 1936, and has served to such satisfaction to the people of his district and the State generally, and has become so highly regarded by Members of the Senate that it is a matter of keen regret to all public-spirited persons who know him that he has decided to retire from office; and

WHEREAS, Senator Quinn has been most zealous in the discharge of his responsibilities as a Member of the Senate, has given close and studious attention to all matters on which he has been required to act, being particularly zealous in guarding the interests of those who have served in the armed forces of our Country and has left his mark upon the history of the State of California as a conscientious and constructive legislator; now, therefore, be it

Resolved by the Senate of the State of California, That the Senate views the departure of Senator Quinn from his post in the Senate as a distinct loss to this body,

and desires by this resolution to convey to him its most sincere good wishes for his future; and be it further

Resolved, That the Secretary of the Senate be, and he is, directed to present to the Honorable Irwin T. Quinn a suitably prepared copy of this resolution.

Resolution read, and on motion of Senator Crittenden, adopted.

By Senator Powers:

Senate Resolution No. 54

Relative to the legislative career of the Honorable Thomas McCormack

WHEREAS, Since the year 1929, the name of the Honorable Thomas McCormack has appeared regularly upon the roll calls of the Senate; and

WHEREAS, Senator McCormack has announced his intention to retire from his office as Senator upon the conclusion of his present term; and

WHEREAS, Through the 20 years of his tenure of office as a State Senator, Senator McCormack has rendered attentive, capable, and conscientious service to his constituents and to the people of the State of California, and has become known to the Members of the Legislature and people of the State generally, as one of the leaders in the public life of the State of California; and

Resolved by the Senate of the State of California, That the members thereof deplore the decision on the part of Senator McCormack to discontinue his service in this body, but wish him continued good health and success in all of his pursuits; and be it further

Resolved, That the Secretary be and he is hereby directed to present a copy of this resolution to the Honorable Thomas McCormack.
